

Hello everyone, my name is Li Ziyu, and I come from RDFZ. I am about to enter Senior Two, and it is a great honor for me to take part in this program.

I have always been interested in volunteer work, and this is actually my first time joining a formal volunteer activity. I see it as a meaningful opportunity to serve the community, contribute to society, and help international visitors who travel to China.

In terms of my experience, I used to serve as a grade assistant in middle school. I helped teachers manage grade-level affairs, supervised students during morning exercises, maintained order during lunch breaks, and supported the creation of a positive school environment. In high school, I am currently the head of the Planning Department of our grade student council. I have helped organize several grade-level activities, such as football

leagues and grade meetings, which aimed to encourage students and enrich our campus life.

As for my special skills, one distinctive skill I have is Peking Opera. I am very interested in traditional Chinese opera and Chinese culture. In addition, I can sing, dance, and do recitation. I hope these skills can be useful in our volunteer work, especially when we introduce Chinese culture to international guests.

Through this program, I hope to improve my English speaking skills, become more confident in cross-cultural communication, and learn how to serve others in a more practical and professional way. I also hope we can work well as a team and have a meaningful and enjoyable experience together.
